

TAXI TRANSIT & LIVERY SOLUTIONS

Alliance AutoGas (AAG) is an international network providing a comprehensive propane autogas solution for multiple vehicle platforms for all major manufacturers. AAG is able to convert mini vans, full-size vans, sedans, limousines, and M/D buses to bi-fuel propane autogas or to a mono fuel configuration. Conversions can be fully compatible with handicap accessible vehicles as well as discreetly installed for luxury platforms.

THE ALLIANCE AUTOGAS ADVANTAGE

- Green branding for contract preference & positive market image
- Preferred access for most airport jurisdictions
- Attractive fuel resell model for independent contractor models
- Direct and indirect labor savings - no fuel stops
- Predictable pricing allows for accurate budgeting
- Competitive edge by reducing your fuel costs by as much as 30%
- Single-point sourcing for fuel allows for greater control, fuel quality, & data integrity
- Excellent “mission critical” fuel supply
- Increases uptime
- Low or no upfront costs allow for quick ROI
