

Alliance AutoGas (AAG) is an international network providing a comprehensive propane autogas solution for multiple vehicle platforms for all major manufacturers. AAG is able to convert mini vans, full-size vans, pickup trucks, cab/chassis', & medium-duty applications to bi-fuel propane autogas or to a mono fuel configuration. Conversions can be fully compatible with all wheelbases & most upfits. Fuel tanks can be placed in underutilized areas of the chassis.

## THE ALLIANCE AUTOGAS ADVANTAGE

- Green branding for contract preference & positive market image
- Economic-positive method to meet sustainability goals
- Competitive edge by reducing your fuel costs by as much as 30%
- Direct & indirect labor savings - no fuel stops
