

THE TRITON DISPENSER CABINET

DESCRIPTION

COMDATA ISSUED CARD

THE TRITON DISPENSING CABINET OFFERS:

- A simple user interface
- Cellular-based communications
- User customizable reporting
- Multi-level user access for Alliance AutoGas Members and Customers
- Real-time management of cards and fleet resources
- A complete end-to-end solution
- Daily data file for back office import
- Ability to accommodate multiple fleets/users at a single location

DATA MANAGEMENT:

The Triton system will ask for a Driver ID, Unit Number and Odometer reading each time after the fuel card is swiped.

Each customer also has a secure administrative password, which enables them to pull information from the Comdata portal at will and/or choose from the numerous fleet reports available through Comdata online using their secure password.
